

2018

What determines your decision to join a medical aid? At Selfmed we cut straight to the

core

Is it the add-on's, you know... the free gym membership and movie tickets or, is it the reliable and affordable medical cover without the unnecessary hidden costs that you know you'll receive when you need it most?

When you phone a call centre, do you want to deal with an administrator that divides attention between members of several medical aids – or do you want peace of mind knowing that your medical aid will be there for you – tomorrow, the next day and as long as you need it?

If it is:

- real, sincere and secure medical cover,
- dedicated and personalised service,
- the security of belonging to a well established medical aid,
- service that will exceed all your expectations,

then your choice is simple... Selfmed

Our approach to healthcare makes us stand out from the rest.

Our Scheme values ensure you of:

- a simplistic, easy to understand product range
- · sincere interest in your well-being promoted by an emphasis on personalised service
- the security that our solid financial position ensures; and
- unsurpassed service

What makes our administrator so unique?

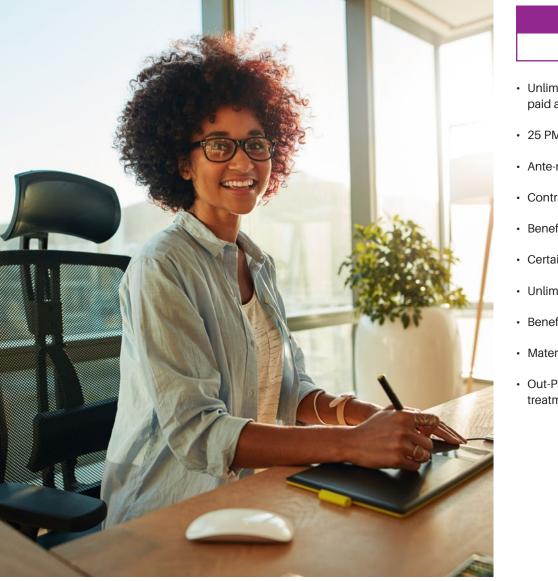

In a traditional medical aid / administrator environment, all administrative functions rest with an administrator. As such, a medical aid would be fully dependent on its administrator to inform it of any problems or complaints received from members. Selfmed controls its own administration and call centre - better known as the "Excellence Centre". Through this model, Selfmed takes total ownership of all member interaction and can address any administrative problems or complaints from members immediately and provide total member satisfaction.

All of Selfmed's options offer:

- Unlimited hospitalisation at any of the Scheme's Designated Hospitals
- Medicine on discharge payable from hospital benefit
- Unlimited emergency transport benefits where the services of ER24 is utilised in South Africa, Swaziland and Lesotho
- Access to professional, specialised Disease Management Programmes when diagnosed
 with a life-threatening condition, e.g. cancer or HIV/AIDS
- MRI-, CT scans payable from major medical benefits, both in and out of hospital
- Unlimited benefits for laser tonsillectomies, gastroscopies and colonoscopies when performed both during and/or not during hospitalisation (co-payments may apply)
- Generous benefits for pregnancy and birth, including home deliveries by a registered
 midwife and pre-birth education (ante-natal classes)
- Unlimited benefits for rehabilitation and home nursing, subject to Scheme approval

What are your options for 2018?

MEDXXI

- Unlimited hospital cover at any of the Scheme's Designated Hospitals, paid at 100% of Agreed Tariff
- 25 PMB Chronic Conditions
