Prescribed Minimum Benefits (PMB) refer to 270 medical conditions and 25 chronic diseases identified by Department of Health and the Government. Only when a critical emergency medical condition is diagnosed (and treated) as a PMB will it be covered on the Selfnet options. SelfNET and SelfNET Essential purely cover PMB in hospital, and as hospital outpatient subject to the treating doctor(s) using the correct PMB diagnosis/treatment codes for any unforeseen life-threatening or critical medical event.

The funding of outstanding claims remains the responsibility of the member. It would be advisable to stay in contact with the treating doctor's accounts department in respect of PMB diagnosis / treatment codes to avoid any potential delay in the payment of claims.

The 270 life-threatening or critical illness conditions that qualify for PMB cover are diagnosis-specific and include a range of ailments that can be divided into 15 broad categories; the content below as per the Council for Medical Schemes.
